Level up with aktiv™
the fluid head built for speed.

When you have just one chance to capture the perfect shot, mount, level and lock the revolutionary aktiv™ fluid head in seconds.

Sachtler's unique SpeedLevel™ and SpeedSwap™ technologies deliver the fastest way to place and position your camera; adjust the level in an instant without ever taking your eye off the action; get closer to the ground than ever before for extreme low-angle shots or swap between a tripod, slider, or hand held without missing a beat. Capture the widest range of shots in the shortest time with aktiv™.

Ambassadors

Geoff Nelson

"The speed of set up of the flowtech and aktiv system is beyond anything that I've ever used. The flowtech tripod is ready in seconds and the levelling system of the aktiv 14T is lightning fast.

The aktiv series and flowtech combination really has no competitor. It allows you to work with a lightweight system that is easy to use, efficient and fast. My experience so far with the 14T has been phenomenal."
Stuart Howells

"The range that it enables you to be able to get is just incredible, and that- as a camera operator – means I have no concerns about having time to get that shot- I know with this system I definitely can because it's so quick and it's so easy."

Level up and lock your head in an instant.

Never miss the shot. aktiv™ fluid heads feature revolutionary SpeedLevel™ technology. Release, level, and lock your head tightly into the perfect position without missing a second of action.

Release

Level

Lock

Unique SpeedLevel™ technology.

Capture extreme low-angle shots right down to the ground.

Go lower than ever. aktiv™ and flowtech® combine to provide a flexible one tripod solution delivering the widest height range. With no bowl clamp required, aktiv™ heads allow flowtech® tripods to go flat to the ground for the perfect low-angle shot.

Innovative streamlined mounting system.

Switch between tripod and slider in seconds.

Stay fast for ultimate creativity. aktiv™ fluid heads feature the unique SpeedSwap™ system, allowing lightning-fast camera swaps from a tripod to a slider without missing a beat. The perfect camera movement is just a SpeedSwap™ away.

Revolutionary SpeedSwap™ system.

Visible from any height or angle - day or night.

Clear confirmation that the camera is level comes from the illuminated PrismBubble visible from any height or angle – day or night.

Innovative PrismBubble.
